AMENDMENT TO THE SPECIFICATION

Mail Stop Patent Application

Date: January 16, 2007

Commissioner for Patents

PO Box 1450

Alexandria, VA 22313-1450

Honorable Commissioner of Patents and Trademarks Washington, D.C. 22313

Please find with this correspondence a revised paragraph for the specification.

The paragraph of page 64 line12, please replace the word “Also,” with the following sentence “In another embodiment of this invention,”. The complete paragraph should read as follows:

Once an e-service is displayed on a client computer it will be one or more objects and having means for its association (e.g. page object, link, etc) with the VNRI's e-commerce or other e-services. The association will enable at least one e-commerce/e-service from VNRI to be displayed along with the current displayed content on the client computer screen (e.g. on the same screen window, on a new window, etc.). In another embodiment of this invention, at least one of these objects displayed on the client computer screen will have means to enable communication between the client computer and VNRI.

Accordingly. Applicant respectfully requests that the new revision be accepted without introducing any new matter.

Respectfully submitted,

/John Almeida/

(510) 823-6114 (Phone)
